Doctor Profile

Dr Thomas Moore

BSc, GDipClinBioc, MBBS, FRANZCP

Dr Thomas Moore BSc, GDipClinBioc, MBBS, FRANZCP is a consultant psychiatrist and specialises in adult general psychiatry including mood and psychosis disorders. He also has a special interest in PTSD, occupational injury and consultation-liaison psychiatry.

He has further experience with the diagnosis and management of anxiety disorders, older-age psychiatry and perinatal disorders. Prior to psychiatry, Dr Moore gained experience in medical research and education. He's published his research and taught Science and Medicine students, nurses and paramedics in a variety of settings, including at the University of Queensland, Griffith University, University Of Calgary and University of Wales, College of Medicine.

Dr Moore completed his Medical degree and Psychiatry training in Queensland. During his training he gained experience in all aspects of Public and Private Psychiatry including subspecialty experience in Forensic Psychiatry, Eating Disorders and Child and Adolescent Psychiatry. He also participated in training and provision of Trauma Focussed – Exposure Based Therapies, forming the basis of his current major interest.

Dr Moore maintains an interest in research, particularly the translation of current research into safe and effective patient-focused therapies. Through the utilisation of a variety of hospital based groups and community resources, he aims to assist the individual achieve relief from the impact of injury and trauma on their lives and on those close to them. He also offers General Practitioners up to date management advice to assist their patient care needs.
